

Epic Laser Dentistry

Epic laser dentistry™ is one of the most advanced dental treatments today. Epic uses unique technology that combines focused light and thermal energy for a highly precise, exceptionally gentle dental experience. Epic allows your dentist to perform a wide range of procedures with benefits including:

- ✦ Faster healing time and less trauma to gums.
- ✦ Less anesthetic for most procedures.
- ✦ Less post-operative discomfort.
- ✦ Making dental care a more relaxing experience for you.

You deserve better dentistry.

Pain Relief with Epic™

Canker sores and cold sores are a painful nuisance. They can make talking or eating difficult, and always seem to take forever to go away. Fortunately, your Epic dentist can safely and efficiently treat these sores on your lips, tongue, inner cheek and gums — often relieving pain immediately.

Once your canker sore or cold sore has been diagnosed, Epic treatment is simple:

- ✦ Laser energy is applied to the sore for just a few minutes
- ✦ Most people experience immediate pain relief
- ✦ Sores typically heal faster when treated with laser¹
- ✦ Potentially avoid prescription medication for your sore, avoiding its side effects and possible drug interactions.

Have questions About Oral Lesions?

Ask the dentist or one of our staff. We'll be happy to explain all about the condition and laser treatment.

	Canker Sores	Cold Sores
Symptoms	Painful, open sores that appear inside lips & cheeks, at base of gums, or under tongue	Appear around the lips or at the corners of the mouth
Medical Name	Aphthous ulcers	Herpetic lesions
Cause	Stress, poor nutrition, food allergies, illness, hormonal changes, trauma	Outbreak of herpes simplex virus (HSV-1)

BEFORE

Courtesy Dr. Gary E. Alhadeff

Large, inflamed cold sore before treatment.

AFTER TREATMENT

Same lesion after several seconds of treatment with the Epic laser. Patient reported immediate pain relief.

7 DAYS AFTER TREATMENT

Inflammation is gone and treated area is completely healed.
